

Terminal server for employees (MacOS)

Please install the **Windows app** on your device. This app can be downloaded free of charge from the Apple App Store.

You can download a preconfigured configuration file for the connection to the terminal server of the Carinthia University of Applied Sciences here: [MA_Terminalserver_Mac.rdp](#)

Double-click on this file to establish a connection to the terminal server after entering your CUAS user account.

Enter Your Credentials

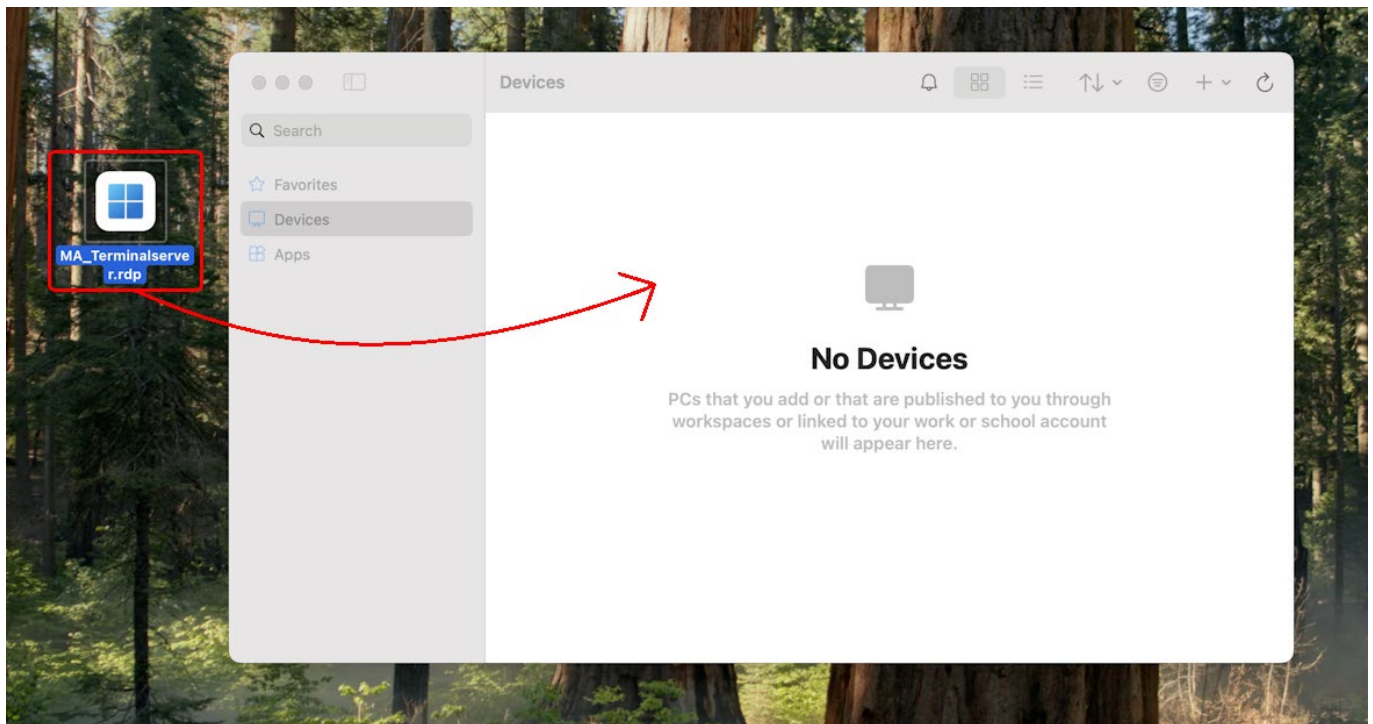

These credentials will be used to connect to rds.fh-kaernten.at (remote PC) and vtgw01.fh-kaernten.at (gateway).

Username:

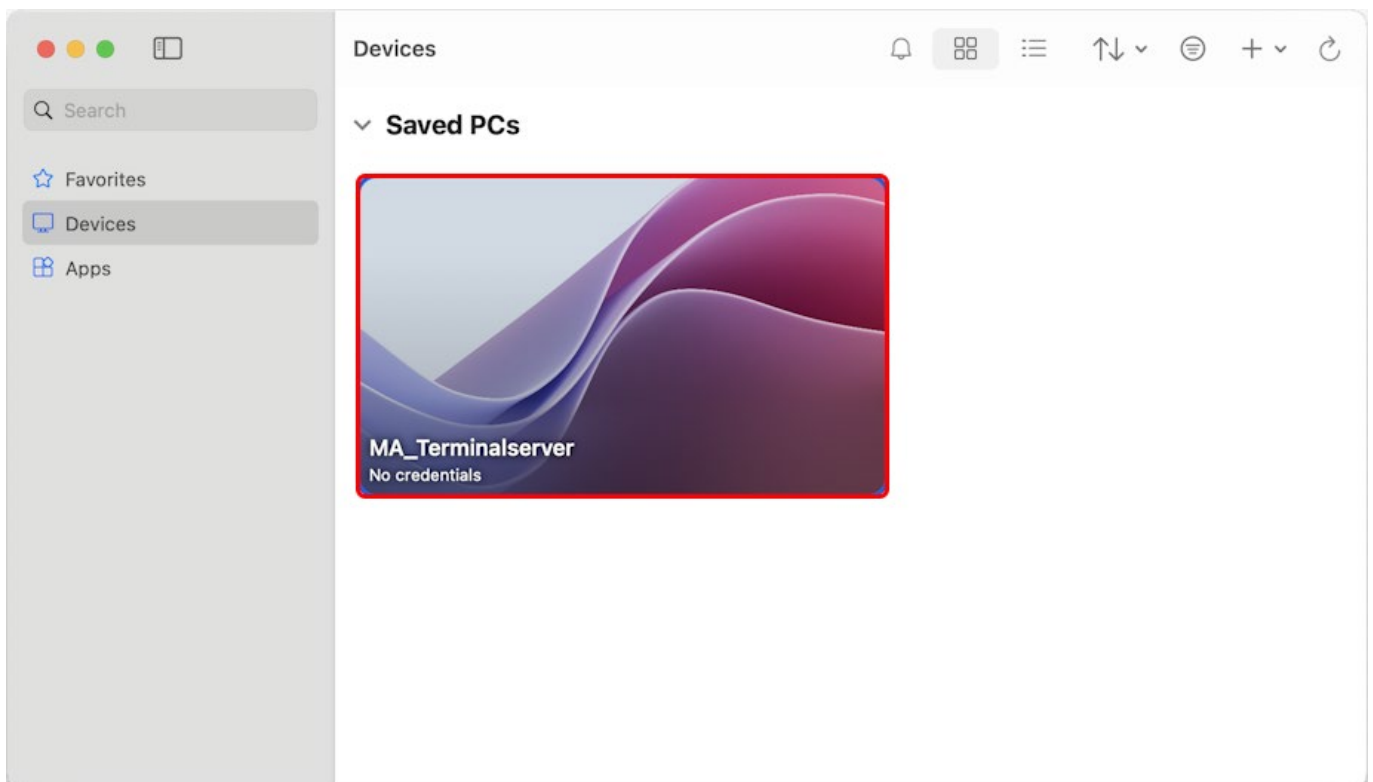

Password:

☐ Show password

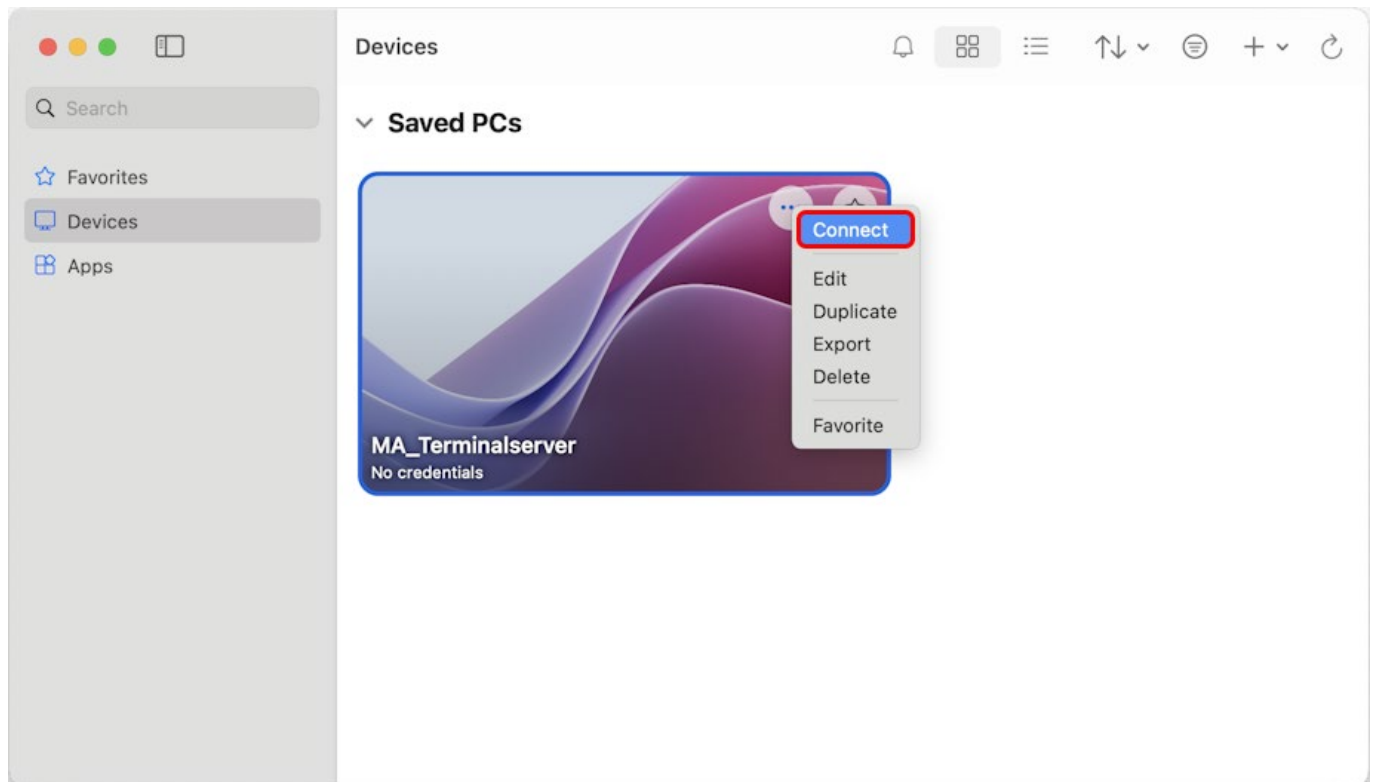

Optionally, this file can also be imported into the **Windows app**. To do this, simply drag and drop the file into the app.

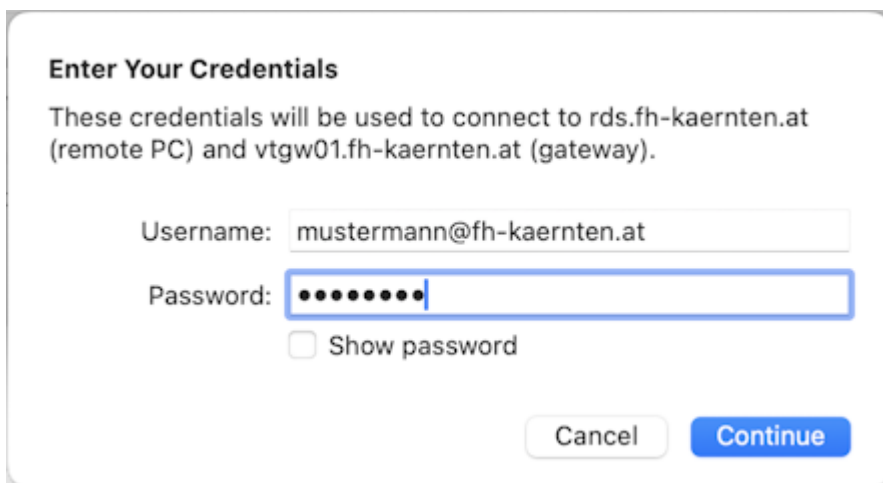

A new entry appears in the list of saved PCs: **MA_Terminalserver**

Please click on the three dots and then on **Connect**.

After entering your CUAS user account, the connection to the terminal server will be established.

A screenshot of a dialog box titled 'Enter Your Credentials'. Below the title is a message: 'These credentials will be used to connect to rds.fh-kaernten.at (remote PC) and vtgw01.fh-kaernten.at (gateway)'. There are two input fields: 'Username:' with the text 'mustermann@fh-kaernten.at' and 'Password:' with a masked password of ten dots. Below the password field is a checkbox labeled 'Show password' which is currently unchecked. At the bottom right are two buttons: 'Cancel' and 'Continue'.
