

Terminal server for students (MacOS)

Please install the **Windows app** on your device. This app can be downloaded free of charge from the Apple App Store.

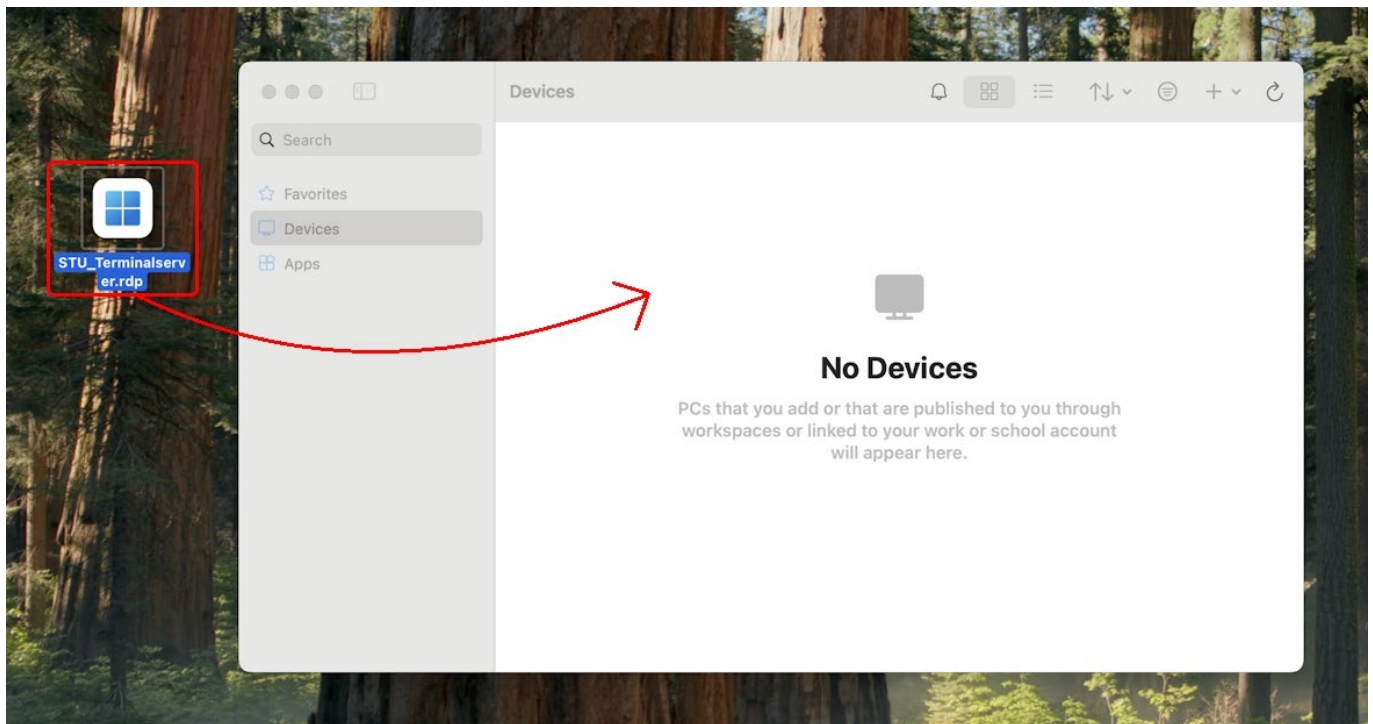

You can download a preconfigured configuration file for the connection to the terminal server of the Carinthia University of Applied Sciences here: [STU Terminalserver_Mac.rdp](#)

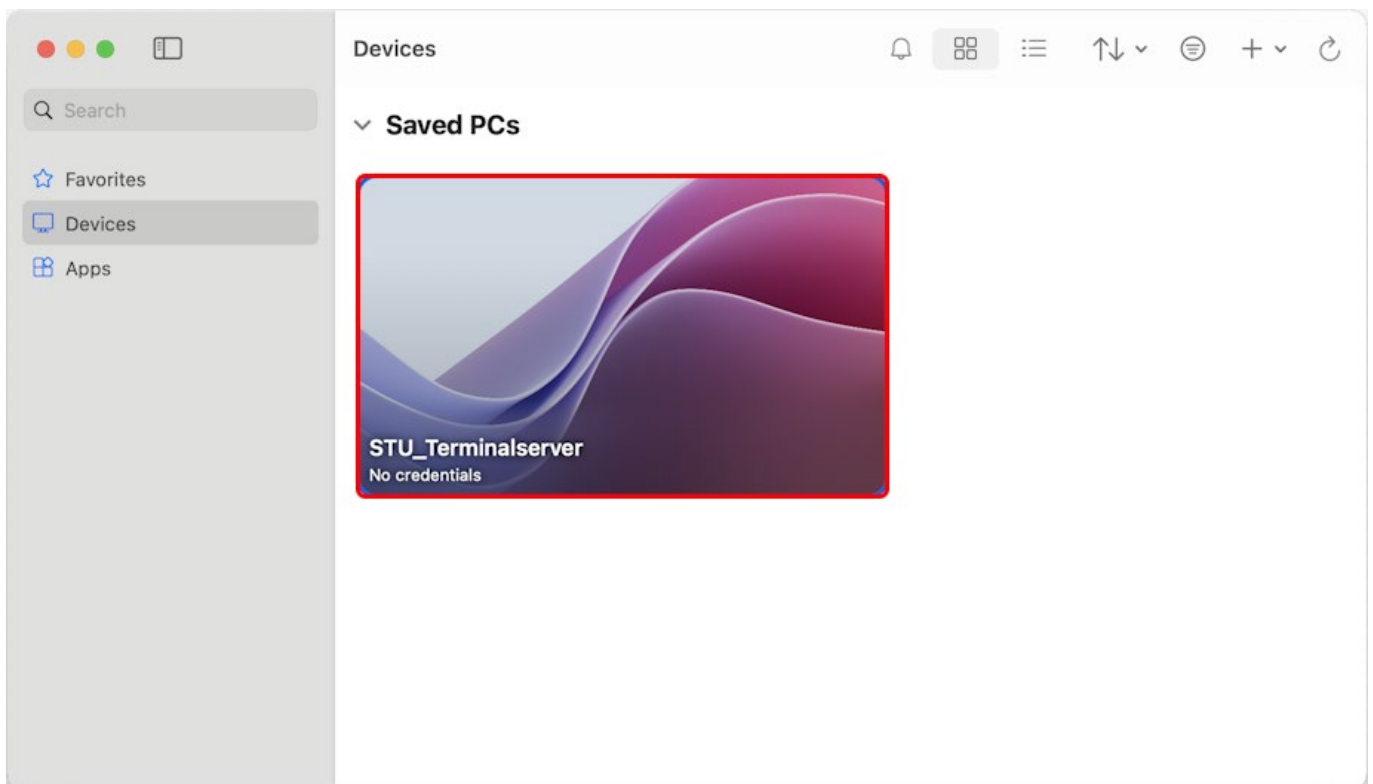

Double-click on this file to establish a connection to the terminal server after entering your CUAS user account.

The image shows a dialog box titled "Enter Your Credentials". Below the title, it states: "These credentials will be used to connect to rdsstu.fh-kaernten.at (remote PC) and vtgw01.fh-kaernten.at (gateway)." There are two input fields: "Username:" with the text "edumusmax001@fh-kaernten.at" and "Password:" with a masked password represented by dots. Below the password field is a checkbox labeled "Show password". At the bottom right are two buttons: "Cancel" and "Continue".

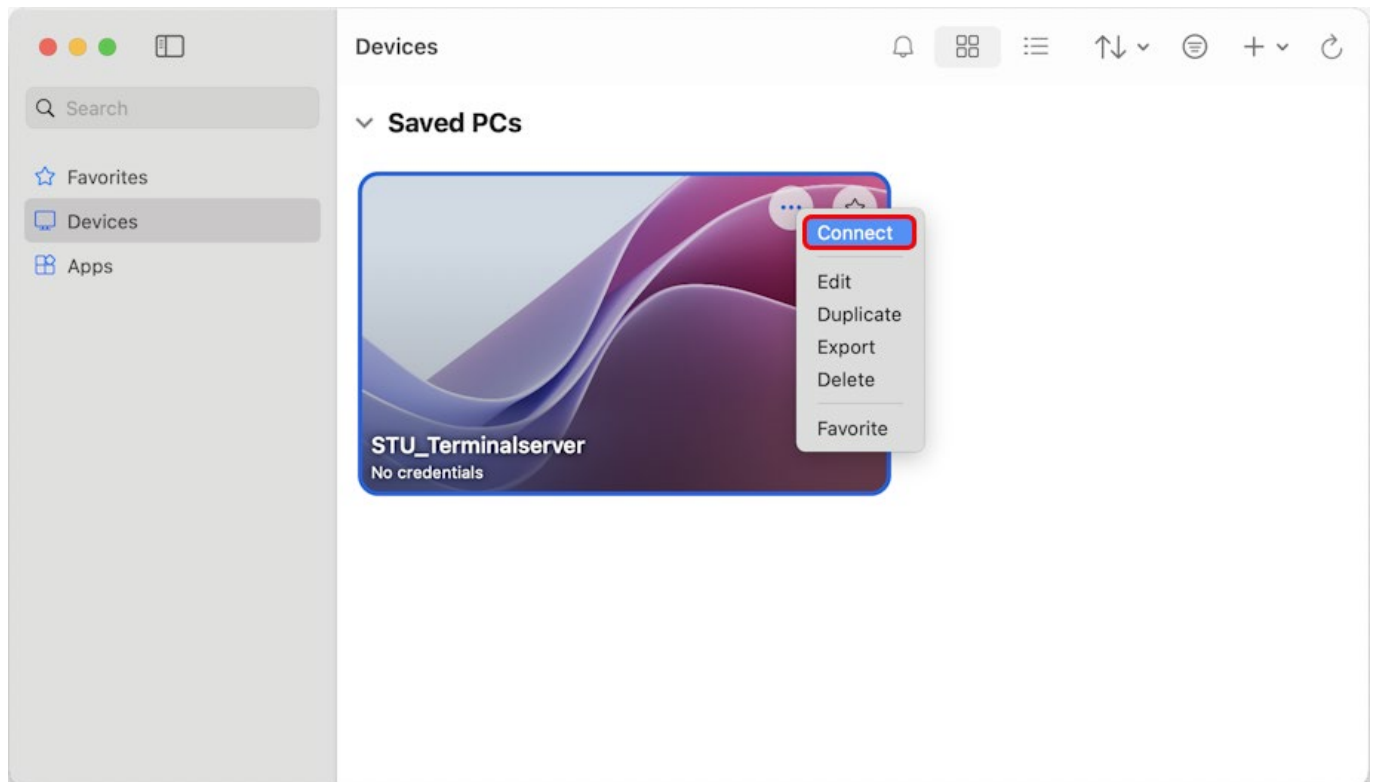

Optionally, this file can also be imported into the **Windows app**. To do this, simply drag and drop the file into the app.

A new entry appears in the list of saved PCs: **STU_Terminalserver**

Please click on the three dots and then on **Connect**.

After entering your CUAS user account, the connection to the terminal server will be established.

A dialog box titled 'Enter Your Credentials'. It contains the text: 'These credentials will be used to connect to rdsstu.fh-kaernten.at (remote PC) and vtgw01.fh-kaernten.at (gateway)'. Below this are two input fields: 'Username:' with the value 'edumusmax001@fh-kaernten.at' and 'Password:' with a masked password of ten dots. A checkbox labeled 'Show password' is below the password field. At the bottom are two buttons: 'Cancel' and 'Continue'.
